## **Bullying Prevention and Intervention Plan**

### ***Promoting Healthy Relationships within Positive School Climates***

**Glen Dhu P.S.**

#### **OUR SCHOOL COMMITMENT**

We are committed to establishing and supporting learning and working environments that are safe, welcoming, respectful, equitable, accessible, inclusive and free from discrimination, oppression and harm. Indigenous inherent rights, human rights and equity are at the center of our work. This fundamental commitment to human rights begins with meaningful investment in a Positive School Climate.

A Positive School Climate:

- Ensures that everyone is treated with dignity and respect;
- Expects, welcomes and includes everyone;
- Values, affirms and supports the expression of diverse identities;
- Promotes, protects and upholds Indigenous inherent rights and human rights – including students' right to education without discrimination and employees' right to employment without discrimination;
- Centres the rights of the child/student in ways that are not discriminatory and that do not cause or perpetuate harm;
- Prioritizes relationships, well-being and equity through a Whole School Approach.

While we work proactively to promote positive and respectful interactions, we will also address any behaviour or interaction that is likely to have a negative impact on the school climate, including bullying, discrimination and other forms of harmful interaction. In planning our responses, we will consider and provide support for all impacted staff and students, including those who were harmed, those who witnessed the harm, and those who caused harm.

**We will promote a Positive School Climate in both proactive and responsive ways**

## MINISTRY STATEMENTS

“A positive school climate exists when all members of the school community feel safe, included, and accepted, and actively promote positive behaviours and interactions. Principles of equity and inclusive education are embedded in the learning environment to support a positive school climate and a culture of mutual respect. A positive school climate is a crucial component of bullying prevention.”

*Taken from Ministry of Education of Ontario, PPM 145*

“Bullying will not be accepted on school property, at school-related activities, on school buses, or in any other circumstances (e.g., online) where engaging in bullying will have a negative impact on the school climate.”

## HEALTHY RELATIONSHIPS

Healthy Relationships are grounded in treating one another with dignity and respect.

Healthy Relationships provide:

- A sense of security and stability
- Basic needs
- A sense of being valued and belonging
- Support and guidance to learn essential skills and understanding
- Protection from excessive stress

All adults who are responsible for children play an important role in teaching them about healthy relationships and bullying. Teachers, parents/guardians, and other adults involved in children’s lives:

- Model relationship skills and attitudes
- Create positive situations in which children and youth interact.

Children will only learn positive relationship skills and attitudes if they observe and interact with adults who model positive relationships when interacting with children and adults.

## HARMFUL INTERACTIONS

**Bullying:** Aggressive and typically repeated behaviour by a pupil where...

- (a) the behaviour is intended by the pupil to have the effect of, or the pupil ought to know that the behaviour would be likely to have the effect of,
  - i. causing harm, fear or distress to another individual, including physical, psychological, social or academic harm, harm to the individual’s reputation or harm to the individual’s property, or
  - ii. creating a negative environment at a school for another individual, and

- (b) the behaviour occurs in a context where there is a real or perceived power imbalance between the pupil and the individual based on factors such as ancestry, size, strength, age, intelligence, peer group power (e.g., popularity), economic status, social status, religion, ethnic origin, sexual orientation, family circumstances, gender, gender identity, gender expression, race, disability or the receipt of special education

For the purposes of the definition of “bullying”, behaviour includes the use of any physical, verbal, electronic, written or other means.

**Aggression:** A response to conflict, threat or an internal emotional state of anger/irritability in which the intent to harm may or may not be present.  
Aggression...

**Teasing:** A type of “playful” interaction that can range from positive (e.g., bantering, joshing, ribbing) to negative (e.g., mocking, pestering, tormenting)

- (a) Positive teasing takes place within a healthy relationship. It is good natured, fun and reciprocal
- (b) Negative teasing is characterized by words or actions that cause harm on one or both sides of the interaction. Negative teasing harms relationships as well as the school climate

- (a) there is no power imbalance between those in conflict, or at least, the power imbalance is not being weaponized by the person with more power
- (b) all parties are typically invested in resolving the conflict (or at least ending it)
- (c) conflict most often occurs among people who share an existing relationship: classmates, siblings, friends, partners, colleagues, etc.
- (d) tensions underlying the conflict are not related to identity (e.g., ancestry, race, ethnicity, gender, sexual orientation, religion) and may be amplified by stressors for one or both parties in conflict
- (e) conflict typically centers on disagreement, personal errors, unclear or unmet expectations, or poor communication

**Cyber-bullying:** For the purposes of the definition of “bullying” seen here, bullying includes bullying by electronic means (commonly known as cyber-bullying), including,

## Strengths and Goals

### What the Data Tells Us – School Climate and Well-being Surveys and Other Data

As part of the on-going monitoring and evaluation process, schools gather data from various of sources, including school climate surveys of students, staff and parents/caregivers every two years. Our school data indicates the following:

#### Strengths:

Based on survey data, the majority of our students and staff feel safe and feel like they belong at school. There responses indicate that the school is friendly, respectful, and they have a strong sense of belonging at Glen Dhu. The school climate has resulted in students feeling that they enjoy learning and being at school and feel that Glen Dhu is a welcoming school. A large majority of students feel optimistic, they have friends and are accepted. Students at school are confident in their ability to be successful and know that the school sets high academic expectations for them which they feel they can achieve.

Based on the analysis of various sources of data, our school has identified specific bullying prevention and intervention goal statements for this school year. These goal statements will drive our actions for this year. Outcomes will be monitored and assessed using a continuous improvement cycle.

#### Goals:

Although a majority of students feel well supported at school when during any emotional upset, this is an area of growth for our students. In particular, our students can grow and build their skills of empathy, kindness, SEL (Social Emotional Learning) skills, self-awareness and self-regulation. Equity and inclusion continue to be important foci for our school plan. Teaching character education, self-regulation, and emotional intelligence will continue this year. Self-Regulation will be embedded into practice to assist students in being calm, alert and ready to learn. We will continue to ensure students know the resources and people that they can use when they are having times of distress. One of the strengths of our school is the caring staff who are available for students to connect with as a caring adult. We will continue to facilitate these connections between staff and students. Bullying was not reported as a major concern for our school and we continue in our efforts to support a safe and accepting school environment. We continue to educate students in what bullying is, and how to report bullying if it occurs. Bully prevention and intervention initiatives will continue this year.
